

The City of Northville will hold a public hearing on a proposed water system improvements project for the purpose of receiving comments from interested persons.

The hearing will be held at 6:00 p.m. on Tuesday, May 9, 2023 at the following location: Northville City Hall at 215 W. Main St., Northville, MI 48167.

The purpose of the proposed project is to provide the City's water users with a more reliable water system by implementing repair and replacement projects throughout its aging water infrastructure.

Project construction will involve replacement and installation of approximately 21,320 feet of 8-inch to 12-inch water main, abandonment of an existing underground water storage reservoir and associated pump station, construction of a new booster pump station, installation of new pressure reducing valves, and replacement of 35 lead service lines.

The City of Northville's water system dates to approximately 1892 when water was originally sourced from springs located just northwest of the City along Beck Road. Numerous sections of the existing water main date back to that original system and have provided well over 100 years of service.

Impacts of the proposed project include those experienced during typical construction projects including noise, dust, and local traffic disruptions. All impacts are anticipated to be temporary and disturbed areas will be restored to existing conditions following construction.

The estimated cost to users for the proposed project will be approximately \$103 bi-monthly based on the current billing schedule.

An electronic copy of the plan detailing the proposed project is available for inspection electronically and can be accessed on the City's website at www.ci.northville.mi.us. A hard copy of the project plan can be reviewed at City Hall, 215 W. Main St., Northville, MI 48167 between the hours of 8:00 a.m. and 4:30 p.m., Monday through Friday, beginning on April 28, 2023, until May 9, 2023.

Written comments received before the hearing record is closed on Tuesday, May 9, 2023 at 4:00 p.m. will receive responses in the final project plan. Written comments should be sent via mail to the attention of Public Works, 215 W. Main St., Northville, MI 48167 or via email to mdomine@ci.northville.mi.us.
